sense and simplicity

Specifications

iPod compatibility
- Compatible with: iPod, iPod mini, iPod nano, iPod with color display, iPod 5th Generation

Audio Playback
- Cradle playback mode: Charging iPod, Play and Pause, Next and Previous track, Fast forward and backward
- Loader Type: Motorised, Tray
- Playback Media: WMA-CD, MP3-CD, CD, CD-R, CD-RW
- Disc Playback Modes: Fast Forward/Backward, Next/Previous Track Search, Repeat Play, Shuffle Play
- Programmable Tracks: 20

Sound
- Output power (RMS): 2x4 W
- Sound System: Stereo
- Loudspeaker types: Bass Reflex Speaker System
- Sound Enhancement: Dynamic Bass Boost
- Speaker diameter: 3"
- Volume Control: rotary

Tuner/Reception/Transmission
- Tuner Bands: FM, MW
- Auto digital tuning
- Antenna: FM Antenna

Connectivity
- Aux in
- Headphone: 3.5 mm

Convenience
- Display Type: LCD
- Backlight
- Remote Control: Multi-functional

Power
- Mains power
- Battery type: LR20
- Battery voltage: 1.5 V
- Number of batteries: 6

Accessories
- Included Accessories: Remote Control, Audio Cable, AC Power Cord, User Manual, Warranty certificate

Dimensions
- Packaging dimensions (W x H x D): 410 x 187 x 307 mm
- Product dimensions (W x H x D): 358.4 x 140.6 x 260 mm
- Weight: 2.22 kg
- Weight incl. Packaging: 3.15 kg

Product highlights

Play and charge your iPod

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Motorized CD loader
